IPS SUMMER SCHOOL

2025

About Graduate School of Information, Production and Systems, Waseda University:

Located in Kitakyushu, IPS is a graduate school of Waseda University that focuses on interdisciplinary research in information technology, production systems, and integrated engineering. All courses are offered in English, fostering a diverse and international learning environment.

IPS emphasizes practical education and strong industry collaboration, giving students opportunities to work on real-world challenges. The school aims to nurture globally minded engineers and researchers who contribute to society through innovation and cooperation.
